

LEARN TO RESPECT PERSONAL SPACE

chorus

I've got my space
you've got your space
Everybody's got
their personal space

Don't sneak up on me
or get in my face
Learn to respect
personal space

Don't put your hands on another
some people are bothered by touch
Don't get so close as to smother
'Cause when you're in my space
I might not like it too much
(repeat chorus)

Don't poke or tap or prod others
Even just kidding around
That's an invasion of personal space
When you give respect, you'll find
it comes back around
(repeat chorus)
(repeat chorus)

Personal space...
