

# **I LOVE THE RAIN**

*Words & Music by Judy Pancoast © 2003*

We used to sit in the garage with the door rolled up;  
Me and my Dad, just watchin' the raindrops.  
I'd try to catch those drops in a jar  
And recycle the rain by washing the car.

## **CHORUS:**

Some people claim that the rain is a pain but as for me I'll never  
complain  
Cause I love the rain, I love the rain, I love the rain, I love the rain.  
Now when it rains on a Saturday  
I never, never say "Rain, rain go away"  
I just pull the covers up over my head  
And listen to the rain fall over my bed

## **REPEAT CHORUS**

## **BRIDGE:**

Go out and dance in a natural shower, washing the birds, feeding the  
flowers;  
Making the rivers rush off to the sea...  
Oh let the rain fall down on me!  
And as you watch things grow, you might just see a rainbow...oh, oh, oh  
When it rains and you can't go out to play,  
You gotta stay inside, but that's ok;  
Just turn off the TV and turn on your brain  
And make up a song about the rain

I love the rain.....
