

## **WHERE I LIVE**

*Lyrics & Music by Judy Pancoast © 2008*

These are the trees that grow here, where I live, where I live  
This is the wind that blows here, where I live, where I live  
This is the way the sunset shines,  
This is the home I know is mine  
Where I live, where I live  
These are the roads we walk on where I live, where I live  
This is the sound of birdsong where I live, where I live  
This is the way the flowers smell  
These are the stories people tell  
Where I live, where I live

### **BRIDGE**

I have roamed far and wide, taken roads in life and stories  
And I've loved other places, their treasures and their glories  
But I'm a like puzzle piece, and I'm like a flock of geese  
Something's always pulling me back home  
These are the things that grew me then, where I live, where I live  
These are the folks that knew me when, where I live where I live  
This is the place my heart knows  
This is the place my spirit grows  
Where I live, where I live, where I live.....
