

## DINO STORY

I was underneath the covers  
Mom had just turned out the light,  
When the shadows of some dinosaurs  
First came into sight.  
They were dancin' on the ceiling-  
Slidin' 'cross the floor,  
Then they jumped up on my tummy  
And gave out a Dino-roar...

**They made my bed rock!**  
**They made my room roll!**  
**We did the Hip-Hop!**  
**Oh yeah, before they had to go...**

Well... a baby brontosaurus  
Found my favorite ball and bat  
And a friendly stegosaurus  
Struck him out in nothin' flat.  
They gathered all around me,  
Beggin' me to play,  
But I whispered, "It was late!",  
And they said they really couldn't stay.

**Chorus repeat**

When the lights came on real suddenly,  
I blinked and looked around.  
There were tos and blankets everywhere,  
No dinosaurs were found.  
I said "You shoulda seen 'em!  
They were big and green and tall!"  
But I don't think they believed  
My Dino-Story-- not at all.

**Chorus repeat**
