

# **We're All Americans**

Traditional Melody on Verses  
Words by Barbara Speicher

## **Verse #1**

A melting pot of people from countries near and far  
A rich mixture of cultures that sets us apart  
A kaleidoscope of colors, of customs, and of race  
Immigrants all seeking new lives in a better place

## **Chorus**

Different though united, we're all one  
Different though united, we're all Americans

## **Verse #2**

Many millions left their homes behind, their families & their friends  
They came from all around the world for different reasons  
English, Irish, Spanish, Greeks, Italians, Indians, Japanese  
Africans, Germans, Russians, Mexicans, French, and Chinese\*

## *Chorus*

## **Verse #3**

Lots of sights and sounds and tastes of diversity  
People joined together for more opportunity  
They were looking for the promise of basic liberty  
Wanting life to always be as free as air we breathe

## *Chorus*

Different though united, we're all one  
Different though united, we're all....Americans!

*\*and many other nationalities, too*
