

# City Child

John H. Keenan & Jo-Anne R. Wilson-Keenan

1. City child in the elevator

We're goin' down, we'll go up later  
City child headin' down the street  
We talk about the things we see  
Come along with me  
City child

2. City child ridin' on a bus

Lookin' around, not makin' a fuss  
City child we're goin' downtown  
There's tall, tall buildings all around  
Come along with me  
City child

3. City child in the park

where we can play and we can walk  
City child in a shop  
We look around at what they've got  
Come along with me  
City child

4. City child in the library

There's plenty of books for us to read  
Pick some out and take them home  
It's gettin' late for us to roam  
Come along with me  
City child

*Ending*

City child, city child
