

# Rachel, Rachel

A Tribute to Environmental Hero Rachel Carson

John Keenan & Jo-Anne Wilson-Keenan

1. A child named Rachel  
loved the outdoors  
She walked through fields and woods  
She walked along the shores

## *Chorus*

Rachel, Rachel  
the songbirds sing  
May there never be a silent spring

2. Rachel learned about nature  
and listened to its sounds  
Day after day  
she heard them all around

## *Chorus*

Rachel became a scientist  
and a writer too  
She wrote about nature  
in plain words for me and you

## *Chorus*

4. Rachel warned of chemicals  
that poisoned all that grew  
They killed plants and animals  
and silenced songbirds too

## *Chorus*

5. Rachel knew that living things  
depend on each other  
When we protect nature  
we protect one another

## *Chorus*

6. When birds fill the air  
with a symphony of songs  
When we care for the Earth  
Rachel Carson lives on

## *Chorus (twice)*

## *Verse*

A---/----/D---/A---  
A---/----/Bm---/E7---

## *Chorus*

D---/E---/A---/F#m7
