

It's time to talk about all the circles in the world
Where they at? Point them out!
Spheres and circles in the world
Yea... Aw yea...

And then we'll talk about all the squares
in the world
Where they at? Point them out!
Cubes and squares in the world
Yea... Aw yea...

It's time to talk about all the circles in the world
Where they at? Point them out!
Spheres and circles in the world
You've got your pie—your apple pie
You got your wheel—your bike wheel
You got your plate—your dinner plate
You got your hoop—your hula hoop
You got your ball—your baseball
You got your moon—your full moon

Ow—ow—ow—oooooooooooooooo!!!
It's time to howl—at the moon!

Alright part 2, check it out:
Let me talk about all the squares in the world
Where they at? Point them out!
Cubes and squares in the world
Yea... Aw yea...

Let me talk about all the squares in the world
Where they at? Point them out!
Cubes and squares in the world
Yea... Aw yea...

You got your tile—your floor tile
You got your toast—your piece of toast
You got your hanker—your handkerchief
You got your butter—the pat of butter
You got your cube—your sugar cube
You got your case—your Alphabet Rockers CD case

You know what I'm talking about,
it's time for a little... square dance?
This right here is the square dance
Where you make any angles that
you can with your hands
Square dance. You like that?
That's my square dance.

It makes me feel like being like a robot
All of the time with my hands all around me
I feel so fine, yea.
That's my square dance.

Robot high 5.
Alright, we out.
Peace!
