

IT'S EARTH HOUR (copyright 2014)

Music and Lyrics by Annie Lynn

Verse 1:

Here we sit (here we sit)
We're in the dark (we're in the dark)
Why you ask (why you ask)
Would we do that (would we do that)
We've got big news (we've got big news)
We're taking part (we're taking part)
In Earth Hour, all over the world
And we'll work so the Earth will be fine.....

CHORUS:

It's Earth Hour, it should be more than that
It's Earth Hour, so no excuses cause they'll just fall flat
Please do your part, turn out your lights
For at least an hour at 8:30 to night
What a difference we can make.....

Verse 2:

Here we sit (here we sit)
We're in the dark (we're in the dark)
Why you ask (why you ask)
Would we do that (would we do that)
We've got big news (we've got big news)
We're taking part (we're taking part)
In Earth Hour, all over the world
And we'll work so the Earth will be fine.....

CHORUS:

It's Earth Hour, it should be more than that
It's Earth Hour, so no excuses cause they'll just fall flat
Please do your part, turn out your lights
For at least an hour at 8:30 tonight....what a difference we can make!!!
