

Giggle Tickle Fiddle Little Wiggle Around

by Barry Louis Polisar

If you're ever feeling down

Go giggle tickle fiddle little wiggle around

Giggle tickle fiddle little wiggle around

Left right backwards and upside down

Giggle tickle fiddle little wiggle around

Go walkin' and a talkin' and a squalkin' to the sound

Back and forth go stand on your head

Colors of the rainbow, yellow and red

Windshield wipers slapping in the rain

Go flapping and a clappin' and a chuggin like a train

Giggle tickle fiddle little wiggle around

Left right backwards and upside down

Giggle tickle fiddle little wiggle around

Go walkin' and a talkin' and a squalkin' to the sound

sunshine bright stars above

Gleaming in the moonlight with the one you love

Hands on your head, go hopping around

With a kiss and a hug and a wonderful sound

Giggle tickle fiddle little wiggle around

Left right backwards and upside down

Giggle tickle fiddle little wiggle around

Go walkin' and a talkin' and a squalkin' to the sound
