

**YOU MUST LISTEN QUIETLY
WHILE OTHER CHILDREN SPEAK**

Chorus:

You must quietly while other children speak
You must quietly while other children speak - whatever you do, now
You must quietly while other children speak - you know that it's true, now
You must quietly while other children speak

Learning how to listen is a great virtue
It shows respect for the student and the teacher, too
(repeat chorus)

No learning takes place when kids talk at the same time
Knowledge is for free - 'cause listening doesn't cost a dime
(repeat chorus)
