

Windy Weather by Carole Stephens ©2019

A great song for scarves or ribbon props!

Windy weather blows me along
Windy weather blows you along
On the sidewalk, or the street or playground
Windy weather makes me sing this song.

Blows you sideways – to the side you will go
Blows you forward – to the front you will go
Blows you backward, careful, watch where you go!
Windy weather, yeah – the wind's gonna blow! *(instrumental dance break)*

Just a light breeze – it will twirl you around
Now a big gust knocks you down to the ground
Brush yourself off, and get back up again
Let's go walking with our friend, the wind!
