

The Wind by Michelle Valeri ©1990

I don't expect my preK students to learn all the verses – but they love the chorus! Once you've listened to the song, appoint a ghost, snake and spider to creep up on you. Most kids LOVE to be "slightly spooky!"

Chorus: It's the wind, it's only the wind
Whistling through the treeeees
It's the wind, it's only the wind –
But you know what it sounds like to me?

V.1 Sounds like a ghost slipping in through the door
Sliding along on my living room floor!
Sitting downstairs on my sofa
Sipping soda – on my sofa!
Do you think this ghost might hurt me?

Spoken: Quick everybody, do the wind and blow the ghost back to her seat!

V.2 It sounds like a snake in the bathtub to me
Soaping up under my shower for free
Sitting curled up in my sink
Yes, I think there's a snake in my sink!
Do you think this snake might hurt me?

Spoken: Quick everybody, do the wind and blow the snake back to his seat!

V.3 It sounds like a spider as big as two chairs
Look out! Look out! He's coming upstairs!
He's outside my door – wearing sneakers!
Yes, he's out there, wearing four pair of sneakers!
Do you think this spider might hurt me?

Spoken: Quick everybody, do the wind and blow the ghost back to his seat!

Chorus: It's the wind, it's only the wind
Whistling through the treeeees
It's the wind, it's only the wind –
That's what it sounds like. That's what it sounds like to meeee.
