

One Little Bunny Hoppin' on the Floor by Susan Salidor^©2016

*Start this giggler as a fingerplay, finger-bunny on one hand. Knock on the floor with the other, then add the finger-bunny from the knocking hand to the original hand. I get this one up and moving – have one child (bunny) on one side of the room, with 4 bunnies in waiting on the other side of the room. Act it out! THANK YOU, Susan – and CMN!**

One little bunny, hoppin' on the floor
When she heard a knock-knockin', knocking at the door
So she hopped on over and opened it up
And another little bunny came in to hop.
(Two, three, four)
5 little bunnies, hoppin' on the floor
There was no knock-knockin' knockin' on the door
So they hopped and they hopped and they hopped some more
Then the tired little bunnies sat down on the floor!

If you see * with a song or author, that means that I learned it through The Children's Music Network. I have been a member for almost 20 years and owe this organization so much for the songs that have been shared and the friendships made. Check us out at CMNOnline.org.
