

## **Many Many Cows** by Anna Lee Scully ©1983

Many many many many many many cows  
Many many many many many many cows  
Many many many many many many cows  
Many many many many many many cows

v.1 Out on the hillside, out on the farm  
Many many cows are walking to the barn  
Out on the hillside, out in the field  
Don't it make you think when you drink...milk?

v.2 Look underneath, there's something neat  
A bag of milk above their feet  
You grab that bag they call an udder  
Shake it real hard and you get butter?

v.3 Some are spotted and some are plain  
You look inside – they're all the same.  
They chew their cud as the day goes by  
If it goes right through, it'll make a cow...pie!
