“Don’t be Scared of Bugs”

(Claudia Robin Gunn)

I’m a busy honeybee
I’m a daring dragonfly
I’m an Archeys frog
I’m a katipo hiding in the driftwood
I’m a happy huhu grub
I’m a little blue ladybug
I’m a red admiral butterfly

Don’t be scared of bugs

Insects, amphibians, arachnids and invertebrates
Bugs are many; bugs are very interesting and numerous

Don’t be scared of bugs

I’m a silky spinning spider
I’m a shy and secret slater
I’m a pink and wriggly earthworm
Keeping all the soil turned
I’m a copper caterpillar
I’m a giant wētāpunga
I’m a powelliphanta snail

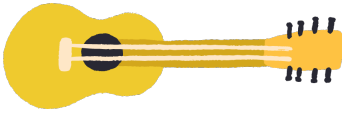

Don’t be scared of bugs

Insects, amphibians, arachnids and invertebrates
Bugs are many; bugs are varied, interesting and numerous
Insects, amphibians, arachnids and invertebrates
Bugs are many; bugs are very interesting and numerous

Don’t be scared of bugs
Don’t call us names or make a nasty fuss
We’re just little bugs in a big big world
Come on now

Insects, amphibians, arachnids and invertebrates
Bugs are many; bugs are very interesting and numerous
Insects, amphibians, arachnids and invertebrates
We are many, we are varied, interesting and numerous
Don’t be scared of bugs
