## “Ferry Song”

(Claudia Robin Gunn)

All aboard, all the family on the ferry  
Setting out to the archipelago on our doorstep  
Have you ever been there yet?  
We can take a picture, we can read the paper  
All the little kids sing  
Let's go buccaneers, we're buccaneers

All aboard, captain and the crew  
Setting out into the big wide ocean blue  
It's waiting for me and you

We're gonna find an island  
We're gonna run on a beach  
Gonna spot some fascinating creatures  
Gonna swim in the sea

Did you see a splash, maybe it's a dolphin  
All the little kids sing  
Nice to meet ya, nice to meet ya

It's a ferry song, it won't be very long  
Until the salt spray blows our blues away

All aboard, all the family on the ferry  
Setting out to a treasure island out in the harbour  
Just a little bit further

It's a ferry song, it won't be very long  
Until the salt spray blows our blues away  
It's a ferry song, it won't be very long  
Until the salt spray blows our blues away

We're gonna find an island  
We're gonna run on a beach  
Gonna spot some fascinating creatures  
Gonna swim in the sea

All aboard x5
