“Happy Place”

(Claudia Robin Gunn)

Are you busy, are you free? Are you happy as you feel?
Do you wanna sing along with a happy little song?

This is our happy place
Hands in the soil getting muddy place
Picking up sticks in the sunshine place
This is our happy place

We got our gumboots on and our sunhats too
Here in our garden green, under a sky of blue

And if you have 5 minutes can you lend a hand?
We’re trying to create a castle in the sand
With a moat and a drawbridge and a driftwood guard
To keep the sea from the gates

Here in our happy place
Toes in the water our splashy place
Picking up shells in the sunshine place
This is our happy place

We got our board shorts on and our sunhats too
This is our beach of dreams under a sky of blue

Come follow along, come climbing up
We’ll never never stop until we reach the top
And we can find the hut, make a cosy fire
To keep us warm all night....

Here in our happy place, quiet and free on a
Mountain place, up in the air and a
World away, well this is our happy place
We got our backpacks on and our sunhats too
Here in our mountain range under a sky of blue

Please be quiet and listen well
Can you hear the sound of the chlorophyll?
Well that’s just silly it don’t make sound
Let’s just sit down

Here in our happy place
Under the trees in a shady place
Out in the woods and a world away
This is our happy place

We got our picnic rug and a sunhat too
This is our forest of leaves and our sky of blue

This is our happy place we'd love to share with you
(Our happy place)
