## “The Loneliest Whale”

(Claudia Robin Gunn)

Sing your own song  
Sing your own song  
Sing your own song

The loneliest whale is singing their own song  
Original frequencies, what a way to be  
You know it's ok to sing your own song  
Soon enough folks hear and they'll sing along

### CHORUS

Some of us have our own tune  
And our own story to tell, listen well  
Some of us swim our own way  
And find our own frequency  
That rings through the sea

The loneliest whale is cruising their own way  
Under the surface, following the seaways  
You know it's ok to sing your own song  
Soon enough folks will hear and sing along

Maybe there's other creatures down there  
Who hear the song too  
If you heard the loneliest whale  
Would you sing too?

### CHORUS

So sing your own song  
Like the loneliest whale  
Sing your own song

Once we were life that lived in the sea  
Imagine it there, like a whale in the deeps  
We came from water to walk on the land  
But the sea it still calls us  
We know by the salt in the blood in our veins  
And the pull of the waves  
And the crunch of our feet in the sand
