

Follow and Lead

You like your music soft,
I like a beat that's loud,
And crank it up for dancing
With a crowd.

You like to play inside,
I like the open skies
Hey, why don't we just take turns
And compromise.

Chorus:

Be the leader, and I'll follow,
Be the follower and I'll lead,
Take a chance, come dance with me,
We can follow and lead, follow and lead.

You like to do work first,
You like to do things fast,
I like to save the worst
Things for last.

I like to stand in front,
When we stand in line,
But if I'm always up in front
You're left behind.

Chorus

Switch around with one another
Switch around and the fun begins.
Switch around with your sister and brother
Switch around and everybody wins.

Chorus

Follow and lead. Follow and lead.
