I Don't Understand

I don't understand.

Teacher, won't you please explain
How floating clouds can make the falling rain
Come down upon the ground?
Please explain.

And teacher, help me feed my brain.
It isn't dumb, but it's become so plain
To see it's driving me insane.
With wondering why, I'm wondering why, so say, 'cause . . .

Chorus:
I don't understand why birds can fly.
If anything can, then why can't I?
Give me an answer, give it a try.
Won't you tell me, 'cause I don't understand?

I don't understand.

So teacher, won't you please explain?
If there's a plan and if you can
Explain it to me, then I won't be complaining
And wondering why; I keep wondering why,
So say, 'cause . . .

Chorus two times

I don't know why birds can fly,
But if they can, then why can't I?
Give an answer, give it a try,
Won't you tell me?

Chorus

Teacher, won't you tell me? No, I don't understand. (3 times)
