

# Soldier of Peace

Now we've come to the final part  
When you open up and fill your heart  
With light, and then you'll start  
To be a soldier, a soldier of peace.

Yes, now we've come to the final part  
When you close your eyes and find your star.  
Become the light you are  
As a soldier, a soldier of peace.

If we can find understanding  
Instead of finding faults,  
Then we can keep building bridges  
Instead of building walls.

*Chorus:*

Come join up, extend a hand  
Around the world, across the land.  
Put your heart first in command, and  
Be a soldier, a soldier of peace.

If we can find understanding  
Instead of finding faults,  
Then we can keep building bridges  
Instead of building walls.

*Chorus*

A soldier of peace. (3 times)

Every day our hearts can play;  
We'll find a way to love one another,  
Every sister and brother,  
Every father and mother,  
Every daughter and son,  
Everyone, everyone.

One, we're one, one.  
Love is the way.  
Love one another,  
Every sister and brother.  
We're one.
