

Your Space

by Dylan Glanzer and Jon Martinez

Spoken: "I want you to pretend you have a big bubble all around you. You can move any way you want inside, but the game is to not let anyone else pop your bubble – it's your very own space!" 4 measure intro

(F C G)

Put your hands out, put your hands up

Slide your feet side to side

Do the twist now, you got the gist now

And you can party with us!

Chorus: (C F C F C C G C)

You stay in your space and I'll stay in my space

That's a great way to play

Cause if you stay in your space and I stay in my space

We can still play together and that's okay.

March your feet now, keep your knees up

March in place to the beat

Nod your head now make it wobble

Spin around but don't get dizzy

Chorus

Instrumental Verse

Repeat Chorus
