

If I Could Have a Hurpholops

(Jim Anger, Cabin in the Woods Music)

Oh, if I could have a Hurpholops,
I'd be happy as I could be,
because we'd be friends forever;
He'd go everywhere with me!
Now, Hurpholops is a
mid-sized dinosaur.
He's only twenty feet high,
but his size wouldn't really matter;
he'd have wings and
we'd fly through the sky!
Oh, when people
would see my Hurpholops,
I'm sure there would be quite a stir,
for instead of scales all over,
he'd have lots of nice, thick fur!
And we'd fly off to birthday parties,
to have carrots and
cake and ice cream.
And when grown-ups
would see us arriving,
there'd be very loud shouts,
even screams!
But I'd show them that
Hurphie was friendly;
in fact was a really nice guy.
He'd purr and wag his huge tail.
Take them all for a ride in the sky!

If we'd meet up with ol' Puff and Jackie,
in that boat with billowing sail,
we would stop for a visit and rest for a while,
then lift off with a wag of Hurph's tail!
Oh, if I could find just one Hurpholops,
I'd share him with you. You're my friend!
And we'd all wave and fly off together—
for adventures that never would end!
Oh, if I could find just one Hurpholops,
I'd share him with you. Don't you see?
And we'd always be super great buddies,
The Hurpholops, you and me!
Yes, we always be super great buddies,
The Hurpholops, you and me!
