

## *Little Bit of Light*

(Carol Johnson, Noeldner Music, BMI)

I've got some of the light in me.

You've got some of the light in you.

And a little bit of light from everyone  
is enough to see us through.

I've got some of the hope in me...

I've got some of the work in me...

There is nobody with a handle on it all  
in no one place, the answers can be found.

But everybody has a gift,  
and everyone can share.

Put us all together  
we can turn this world around.

I've got some of the love in me...
