

Dancing Star

Words and Music by Jack Hartmann, copyright 2011 Jack Hartmann

Watch me, watch me I can raise the roof
Watch me, watch me I can shake it loose
Shake it down then jump it up so far
I can shine like a dancing star

Chorus

Let's get loose and warm it up
All together, step to the front
Jump to the back and clap
Raise your arms up in the air
Back and forth like you just don't care
Right leg stomp to the left
Left leg stomp to the right
One arm up shake your hips
I can disco just like this
Now stop and pose
Be cool, slide to the right
Be cool, slide to the left
Jump up and count

Robo dance, move it, block it like a robot
You got it

(Chorus)

Now everybody square it up
Step to the back, slide to the right
Step to the front, slide to the left
Now cabbage patch, arms circle around, be cool get down
Country dance, stomp and clap
Now turn around, clap like this
Turn around again, clap like this
Right leg stomp to the left, left leg stomp to the right
Now jump up, criss-cross, criss-cross
Shake your shoulders, shake your hips
Shake it like a salt shaker, like this
Now turn around, clap like this
Turn around again, clap like this
Do your own dance, dance free
Now freeze
Let's cool it down, do the sprinkler
Take it down, that was fun, we're done
