

# Days in the Month Rap

Words and Music by Jack Hartmann, copyright 2011 Jack Hartmann

Numbers, numbers, we should remember  
From January to December  
How many days does each month get?  
Rap it and learn you'll never forget

30 days has September, April, June and November  
All the rest have 31, except for February with 28

## **Now whisper rap**

30 days has September, April, June and November  
All the rest have 31, except for February with 28

## **Now big rapper**

30 days has September, April, June and November  
All the rest have 31, except for February with 28

(Chorus)

Rap it and learn you'll never forget!
