One Voice For Children

Activity - This song has been performed by children at graduations and special children's events all over the world. Sing it at your special event and everyone will sing with One Voice For Children.

Will you sing one song - will you touch one hand
Will you light one light - will you take a stand
Will you give them hope - lead them to believe
See your children grow - see your children dream
Can you give your time - can you give your heart
Will you wipe their tears - when they fall apart
Will they know your love - lead them to be free
See your children grow - see your children dream
Sing with one voice for children

Chorus

Sing with one voice for children everywhere
Sing with one voice for children
Sing out loud, sing out long
Sing out proud, sing out strong
There's so much that I can be

Children I need you to help me see
Everyday I like to play
And to learn so many things
Please see me for all I am
Children I will show you that I can
I need you so - don't you know
Sing together - hand in hand

(Repeat Chorus 2X)
