

## 9. If All The Raindrops

C                      G7                      C  
If all the raindrops were lemon drops and gum drops

C                      G7                      C

Oh what a rain it would be.

C                      F                      C                      G7

I'd stand outside with my mouth open wide,

G7

That's the weather for me, oh baby.

C                      F                      C                      G7

I wouldn't care if the sun would never shine,

C                      F                      C                      G7

I'd go on wishing for raindrops all the time.

C                      G7                      C

If all the raindrops were lemon drops and gum drops

C                      G7                      C

Oh what a rain it would be.
