

11. Worms (Patty Zeitlin)

Am E7 Am
There were lots of worms way under the ground

Am E7
Lots of worms that I never found

Am Dm Am
I bet they're way down there, diggin' around

E7 Am
Way under the ground

I dug the biggest hole I ever did dig
The biggest hole, it sure was big
And when I got to the bottom, you know what I found
Way under the ground...

I found a bumpety bug with big black dots
Thirty-three legs and twenty-two spots
But I left him alone because he liked his home
Way under the ground...

I Found a worm to go on a fishing pole
Down at the bottom of the big black hole
But I left him alone because he liked his home
Way under the ground...
