E G D A

[V1]

E G D A
Meet the 21st Century Energy Superheroes (that’s me, and me!)
E G D A
And the planet is secure when a superhero’s near, oh yeah
E E7
The sun and the wind are their super powers
C A
To brighten up our lair, and heat up our showers
E E7
Their supermobile has a basket with flowers
G A
Feel the wind as it blows
G D G D
And they’re looking for, a couple more
D E
21st Century energy superheroes

[V2]
Their superhero motto, “The planet is priceless
Our solar power pager will reports every crisis
Climbing through the subterranean manholes
Equipping all the buildings with solar panels
Wind turbines and gray water channels
Planting seeds in rows
And they’re looking for, a couple more
21st Century energy superheroes

[V3]
It was early one morning, and our pager was beepin’
A planetary crisis while the city was sleeping
Earth’s lungs were filling with pollution
Too much gasoline from the cars was gooshin’
So they said “Bicycles are the simple solution”

And now bikes rule the roads
And they're looking for, a couple more
21st Century energy superheroes
