

Vampire Brother

©2011 Rocky Mountain Music

[Intro]

Vampires aren't real they are only pretend
But there are people who exhibit the vampire trend
Of locking away all the light of the day
Which reminds me everybody I've got something to say

[V1]

My brother must be a vampire
He never goes outside
Spends all day in the basement
From the sunshine he must hide
My brother is just like a vampire
It seems he fears the light of day
With his xbox and his computer
"Online Instant Message"
Is all that he will play

[Chorus]

Vampire brother!
Fear the sun
Vampire brother!
Fear the sun

[V2]

My brother is just like a vampire
He's never seen a tree
But he can tell you what they look like
Because he saw one once on tv
But that's not reality
My brother is just like a vampire
And the only light he'll see
Is the eerie gleam of the plasma screen
From his nintendo wii
Which seems a little sad to me

[Bridge]

Boo hoo hoo, it's so sad
A technological isolation
Boo hoo hoo, so sad, a technological isolation
Don't let technology
Become your only reality
Boo hoo hoo, so sad
A technological isolation
"Turn it off and go explore the world beyond your
basement door"

[Chorus]

Vampire brother!
Fear the sun
Vampire brother!
Fear the sun

[V3]

He's not afraid of garlic
And I've never seen him fly
High up in the sky
But if he's not a vampire
Why doesn't he ever go outside
'Cause that's where life is

[Chorus]

Vampire brother!
Fear the sun
Vampire brother!
Fear the sun
Vampire brother!
fear the sun
vampire brother!
Fear the sun
