

# Energy Smart

©2011 Rocky Mountain Music

[Chorus]

Intelligent development  
Is oh so very relevant  
Now is the time to reduce our CO2  
We've gotta shave it down, take it down  
Everybody break it down  
Let us reconsider what we do

'Cause it's a comprehensive mission  
And it's a conscious decision  
It's a futuristic vision  
To reduce carbon emissions  
In the car or in the kitchen  
It's a simple premonition  
It doesn't take a magician  
To reduce carbon emissions  
We can do it if we try

[V1]

Yes it's true  
There's a lotta good people everywhere  
People who  
Want to nullify emissions in the air  
If we wanna be a part of a global crew  
To reduce our CO2  
If we wanna be a part of a global crew  
Here's a few things we can do

Say goodbye to incandescence  
Say hello to  
Compact fluorescence  
Plant vegetation, across the nation  
Pass forest preservation legislation

[V2]

Yes it's true  
There's a lotta good people right out there  
People who  
Want to nullify emissions in the air  
If we wanna be a part of a global heart  
Let's get energy smart  
Yeah, if we wanna be a part of a global heart  
Here's a few ways we can start

Turn the heat down  
Plant a tree now  
Let the sun or wind provide our energy now  
Feel the wind through  
Your hairdo  
Leave the cars in park and take a bicycle  
cruise

[Chorus]

Intelligent development  
Is oh so very relevant  
Now is the time to reduce our CO2  
We've gotta shave it down, take it down  
Everybody break it down  
Let us reconsider what we do

'Cause it's a comprehensive mission  
And it's a conscious decision  
It's a futuristic vision  
To reduce carbon emissions  
In the car or in the kitchen  
It's a simple premonition  
It doesn't take a magician  
To reduce carbon emissions  
We can do it if we try
