

Voices from the Sky

©Jim Thorne, 2015 (key of D)

D Bm
If we heard a single word
G A
Far away from space
D Dsus
We might hear loud and clear
Em A
From another race
D D7
Maybe we could learn
 G Gm
How to speak to them in turn
 D G A D
And locate their home and birthplace

Could it be that we'll see
How they like to live?
Will we find that they're kind?
Could they want to give?
Maybe we could build
An agreement of good will
And find that we're all relatives

Chorus:

G A
We'd be first to try
G A
Learning how to fly
G
All the way out
 A D
To the Voices from the Sky

Tommy knew what to do
Laura made a plan
They could draft a mighty craft
Built to fly and land
It would go so far out to find the voice's star
And make a great leap for all man

Chorus

If we were travelers
To another star
We would be quick to see
On a trip so far
Everything on Earth would be doubled in its worth
But home is the place where we are

Chorus
