

Smile

(Words and Music by Liam Maloy)

Push your mouth up at the sides
Keep your eyes open wide
Push your mouth up at the sides
Keep your eyes open wide
Your face paints a picture of what you're feeling inside
So, if you're here and you're happy then smile

Smile at the window. Smile at the sun.
Smile at each other. Smile just for fun.
Your face paints a picture of what you're feeling inside
So if you're here and you're happy then smile

S.M.I.L.E. means you're smiling at me.
Everyone's got their own special style.
S.M.I.L.E. Hi de-ho, Hi de-hee.
So, come on and give me a smile.

Smile at the window. Smile at the sun.
Smile at each other. Smile just for fun.
Your face paints a picture of what you're feeling inside
So if you're here and you're happy then smile

Push your mouth up at the sides
Keep your eyes open wide
Push your mouth up at the sides
Keep your eyes open wide
Your face paints a picture of what you're feeling inside
So if you're here and you're happy then smile
