

# To Make a Rainbow

(Music and words by Liam Maloy)

**To make a rainbow you need the sun and the rain.  
Then watch the colours above until they've faded away.  
To see a rainbow, keep looking up at the sky.  
When the sun hits the raindrops, it spreads out the light.**

You see RED!  
For roses and clowns' big noses.  
You see ORANGE!  
Roll your fruits on the ground  
You see YELLOW!  
For ice cream and walking on the sand  
With a great big banana in your hand

**To make a rainbow you need the sun and the rain.  
Then watch the colours above until they've faded away.  
To see a rainbow, keep looking up at the sky.  
When the sun hits the raindrops, it spreads out the light.**

You see GREEN!  
For peas and leaves on the trees  
You see BLUE!  
For the sea and the sky  
You see INDIGO and VIOLET!  
For all things purple that make this such a colourful life.

Red, orange, yellow green, blue, indigo, violet.  
Red, orange, yellow green, blue, indigo, violet.  
Red, orange, yellow green, blue, indigo, violet.  
Red, orange, yellow green, blue, indigo, violet.

**To make a rainbow you need the sun and the rain.  
Then watch the colours above until they've faded away.  
To see a rainbow, keep looking up at the sky.  
When the sun hits the raindrops, it spreads out the light.**

**La la la la ...**

There are lots of things to do when you're a pirate  
Rest your head on my shoulder  
I'm not a real boy  
Down down take me down  
Oh oh oh oh x2  
If we do it together it won't take long
