

Blessed be God

Words and Music by Judy Pancoast © 2010

Verse One:

It started with a star piercing the velvet sky;
One little light to shine on the Earth,
Breaking the night for His holy birth;

CHORUS:

Blessed be God forever, Blessed be God always
Blessed be God forever, Blessed be God always

Verse Two:

Then angels filled the sky like brilliant fireflies
All of the darkness driven away,
Changing the world forever that day!

REPEAT CHORUS

Verse Three:

The shepherd heard the song they'd waited for so long
Bathed in the brilliance of the new morn...
Go tell the world that Jesus is born!

REPEAT CHORUS

Bridge:

Alleluia! That's why we light the lights
A beacon in this darkened world
God is still with us tonight!

REPEAT CHORUS
