1. **"From There to Here"**
Words and Music by Margot Bevington
© ℗ 2018 In and Out of the Clouds (ASCAP)

verse 1:
I see directions
Are they up or are they down?
I see my shadow
Does it smile or does it frown?
I see the clouds fly
Did they fly far to get here?
I see a question
In what seems so very clear
Do you ever do this too?
Want to know what's really true?
Wonder if there's more to see?
Close your eyes and come with me

chorus:
Imagine a bug inside a jug
A star inside a jar from here to there
Imagine a sky that's going high
A car that's going far
From here to there
From there to here

verse 2:
I feel my feet move
Will they walk or will they run?
I feel the wind blow
Will it tell me when it's done?
I touch the window
Will it stay when I let go?
I count my fingers
To the end of what I know
Do you ever do this too?
Want to know what's really true
Wonder if there's more to be
Take my hand and follow me

(repeat chorus)

bridge:
A chair up in the air
A rake that I can shake
A fly up in the sky
A cake that I can bake
A goat inside a boat
A dove that flies above
A mouse inside a house
What am I thinking of?

verse 3:
I hear my echo
Was that me or someone new?
I hear the music
Does the music hear me too?
I hear the raindrops
Can I hum that melody?
I hear the answers
But I'm not sure what they'll be
Do you ever do this too?
Want to know what's really true?
Wonder if there's more to hear?
Come with me to far and near

(repeat chorus)
