verse 1:

When I see trouble and
I'm not sure how it started
I'm a junior ace detective
I can take the case
I step in with my badge
I'm ready for some action
How could trouble come to town
And leave without a trace?
Looking for clues
I'm gonna use my
Skills of observation
Time to get a move on now
It's time to start the chase

bridge:

Get my notebook
Get my coat and brief case
Get my ears to hear and
Eyes to see

Follow leads
I'll use my magnifier
To learn how that trouble
Came to be

chorus:

I'm gonna look
I'm gonna listen
Pick up the scent to solve this
Mystery
I'll feel the pulse
Pick out the flavor
Do what it takes until it
Makes
Sense to me

verse 2:

When I see puzzles there is
Something that intrigues me
I can not stop wondering
Until I put it right
I'm alert when there's something
Missing to the story
How could that have come to pass?
The secret's locked up tight
I'm on the move
I'm gonna prove that
Didn't really happen
I can fix the problem see it
In a whole new light

bridge:

Spy around to
Find the missing pieces
I've a hunch at where they
Ought to be
Crack the code and
Figure out the answers
Gather up the suspects
Find the key

(repeat chorus)

coda:

Sense to me
