4. "Storytime"
Words and Music by Margot Bevington
© ℗ 2018 In and Out of the Clouds (ASCAP)

verse 1:
When Mommy reads to me
The sentences run free
The letters seem to sing
A gentle melody
With fingertips she shows
The words lined up in rows
She starts up at the top
Then down the page she goes
The story jumps about
The pictures help me out
The drawings seem to dance
The colors seem to shout
The words and pictures meet
And give me such a treat
I'm dancing as they dance
I can't stay in my seat

bridge:
Look at the movement
Look at the shapes change as she reads
I can't believe it!
How will it end?
I'll follow where she leads

chorus:
Storytime, storytime
When stories come to life inside of me
Storytime, storytime
When I can play in pages and be
What I want to be

verse 2:
When I go to my bed
I take a book we've read
I try to read the words
They're bouncing in my head
My finger leads the way
Points out the sounds to say
I know the letters there
Look at them as they play
This book's my favorite one

A toy train makes a run
It tries to go uphill
But something gets undone
The train gets broken down
Here comes the circus clown
He tries to get some help
To get the train to town

bridge:
Look at that engine
Coming to help them
Thinks she can
I am that engine
I can help pull
I am her biggest fan

(repeat chorus)

coda:
What I want to be
What I want to be
