7. **“Recycle it with Heart”**
Words and Music by Margot Bevington
© ℗ 2018 In and Out of the Clouds (ASCAP)

verse 1:
A bottle cap, an old shoe lace
I have some glue, now I can place
The lace and cap together there
Now it's a necklace I can wear
An old milk jug, and a pencil too
I'll take some scissors poke them through
I'll make a hole, and a pencil perch
Please stay here birds, no need to search
I know how to make an old thing new
Save it from the trash with tape and glue

chorus:
Recycle it with heart and
Make some art

Recycle it with heart and
Make some art

verse 2:
A CD case, clear back and front
Step two- go on a button hunt
I'll glue them all inside and then
A frame to put my photo in!
The jars in the recycle bin
Will start to make some music when
I fill them each with water and
I tune them up to make a band
I know how to make an old thing new
Save it from the trash with tape and glue

(repeat chorus)

bridge:
I'd like to save the trees and
Keep the ocean blue
If I can start my making
Art that's what I'll do

(repeat chorus)
