verse 1:
Sometimes I go to places I've not been before
Not even ones that I could make-believe
I feel a little shy and I'm not comfortable
The people seem so different than me
I'd like to see what's new and go to check it out
I'd like to see if I can make a friend
I'm in a story that I've never heard before
I wonder what will happen in the end- in the end

chorus:
I wish that I could be
A legendary me
Break the spells and find what's true
Know what to say, know what to do
Because I just want to know
Can I play too?

verse 2:
Sometimes it seems like people come from fairytales
The characters that I see in my dreams
They seem so big and scary they might laugh at me
I wonder is that really as it seems
I'd like to be the brave one that I've seen before
The one who solves the problem saves the day
I'd show my heart and courage when all hope is lost
I'd say "Come follow me I know the way- I know the way"

(repeat chorus)

coda:
Oooo-
Because I just want to know
Can I play too?
Because I just want to know
Can I play too?
