

## Explore the World

I like to ride on elevators, 'cause they go up and down.  
I like to ride on carousels, 'cause they go round and round.  
I like to fly on planes and zoom through the air.  
Or I'll take a train, 'cause it'll get me there!

And I'll explore the world with you.  
Have some adventures. There's so much we could do.

I'd like to ride on rocket ships – blast off through outer space.  
Or I'll drive my car and go all over the place.  
I could row a boat, or paddle a canoe.  
And it's much more fun when I go with you.

I'll explore the world out there.  
Have some adventures – travel everywhere!

I'd like to go to a mountaintop, where I could climb and hike.  
Or strap on my helmet, so I can peddle my bike.  
There are so many things I like to do.  
But they're more fun when I share them with you.

There's a big wide world I want to see.  
So come along, and explore with me.  
Yeah, come along and explore with me.  
Just come along and explore with me!
