In the spring ...the wind blows

In the spring ...the wind blows and the sun shines

In the spring ...the wind blows, the sun shines and the rain falls

In the spring ...the wind blows, the sun shines, the rain falls and the birds sing

In the spring ...the wind blows, the sun shines, the rain falls, the birds sing and butterflies flutter

In the spring ...the wind blows, the sun shines, the rain falls, the birds sing, butterflies flutter and kites fly

In the spring ...wind blows, sun shines, rain falls, birds sing, butterflies flutter and kites fly...way up high in the spring time sky
