---

Chorus:

I love the world and the world loves me  
Will you be my friend so you can see  
The world goes around and around again  
Shaping the future in its spin

The skies are blue and the grass is green  
The sun shines bright with a shimmering sheen  
I'll hold your hand and help you along  
To find my world, while we sing a song

(Chorus)

Come on along and be my friend  
There's a new world waiting round the bend  
We can climb mountains up to the top  
Dance our dance and never stop.

(Chorus)

We are all different people you know  
But still the same from head to toe  
Black or white, red, yellow or brown  
We can all live in my hometown.

(Chorus)

Raise your arms and share a hug  
Invite a new friend to hug-a-lug  
Share that hug from left to right  
Squeeze them, squeeze them oh so tight

(Chorus)
