

JUST STAY LITTLE
(A LITTLE WHILE LONGER)
Peggy Gerner 2010

(Chorus)

**If they could just stay little a little while longer
They're always growing always growing stronger
But I still see you as my little child
Can remember you laughin' and crawlin' by my side**

(Bridge)

**These days fly by so fast
Kids are little one day and grown the next
Sometimes I wish these days would last
And when you hold your Teddy close
That's when I love you the most**

**Runnin' in the sunshine in the fields at play
Kickin' a ball out of our way
I love you now and I always will
Bein' with you gives me such a thrill**

(Repeat Chorus and Bridge)

**And when you hold your Teddy close
That's when I love you the most
And you can still sit on my lap
And we can take a little nap, together**

**We'll always be together, yeah
Together
And I always will remember
If they could just stay little
If they could just stay little, yeah ha ha
If they could just stay little
If they could just stay little, yeah ha ha**

(Repeat chorus last time)
