

Wake Up Little Children

Wake up little children, wake up.

Wake up little children, wake up.

It's time to open your eyes.

Wake up and you'll be feeling fine.

Rest time's over, it's time to get up.

It's time for you to rise and shine.

Wake up little children. Wake up little children.

Well, what cha' going to do when you get up?

I'll bet you're going to have some fun.

Playing with all of your friends and saying, "ooh, la, la."

Wake up little children. Wake up little children.

Boys and girls all need to have some rest time.

So when they all get up they'll have the best time.

Wake up little children. Wake up little children.

It's time to get up.

Wake up little children, wake up.

Wake up little children, wake up.....
