

Let's Do Math Along the Path

Music by John and Nancy Bryan

Lyrics by Nancy Bryan with A.J. Smith Elementary/Grade 6, Chorus

8 x 10
I got 80 hens
7 x 11 is 77
Going to heaven on this sunny day
6 x 8 in 48 ways

12 x 12 is 144
Monkeys eat bananas
They leave peels on my floor
4 x 9 is 36
I want to go eat my Pixie Stix
Pure Sugar!

Chorus
Let's do math along the path
Show how much we know
Multiplication is education
Let's just sing this song as we go
Math is fun
You'll be number 1

5 x 9 is 45
Bees buzzing 'round their big beehive
3 x 7 is 21
My baby sister likes to suck her thumb
3 x 6 is 18
Mark's going out with Kathleen
6 x 7 is 42
I see your face in the sky so blue
Boo Hoo!!

Chorus

5 x 7 is 35
My favorite dessert is my grandma's cherry pie
7 x 9 is 63
Birds are flying in the breeze
4 x 6 is 24
Pairs of shoes I bought at the store
8 x 9 is 72
I'm listening to the cows in the barn go moo!
Moo Moo!

Chorus
Let's do math along the path
show how much we know
Multiplication is education
Let's just sing this song as we go
Math is fun
You'll be number 1!
