

My Space Your Space

Pam "The Kindersinger" Minor

Chorus

You stay in your space I'll stay in mine
It's easy to remember and we'll get along fine
Sitting beside each other standing in line
Your space my space don't cross that line
My space your space not an either/or space
Your space my space don't cross that line

V1:

When I was very little I got good advice
No pushing or shoving always be nice
Be kind to others put a smile on your face
And never forget you've gotta stay in your space

V2:

While we're on the subject here's a great tip
Her space your space on a long trip
Car rides seem faster when you stay in your place
So never forget it's all about space

V3:

Oh one more thing I hope you're aware
Sometimes with spaces you've got to share
It's no big deal to scoot over a bit
And make room so other friends are able to sit
