

MOMMY'S GOT A BABY IN HER BELLY

Mommy's got a baby in her belly and she says he just for me.
I get to hold him, I get to tickle him, I get to watch him sleep.
Mommy's got a baby in her belly and I hope he gets out soon.
Cuz I can't wait to see his face and tell him "I love you!"
I will be careful and won't let him fall
I know his gentle and soft like a doll
But when he grows up we'll surely be friends
Playing and playing and playing again!

Mommy's got a baby in her belly and she says he just for me.
I get to hold him, I get to tickle him, I get to watch him sleep.
Mommy's got a baby in her belly and I hope he gets out soon.
Cuz I can't wait to see his face and tell him "I love you!"
I will read books and sing him my songs
I will help feed him and then he'll be strong
And when he starts talking to me,
We can play games and make up stories

Mommy's got a baby in her belly and she says he just for me.
I get to hold him, I get to tickle him, I get to watch him sleep.
Mommy's got a baby in her belly and I hope he gets out soon.
Cuz I can't wait to see his face and tell him "I love you!"
Bridge: A baby, a baby, a baby for me
A baby, a baby, a baby Yippee!
A baby, a baby, a baby for you and me!
Mommy's got a baby in her belly and she says he just for me.
I get to hold him, I get to tickle him, I get to watch him sleep.
Mommy's got a baby in her belly and I hope he gets out soon.
Cuz I can't wait to see his face and tell him "I love you!"
